EDUCATION

IBM - Department

Dong-A University

2021 - 2025

LANGUAGES

English — Fluent
Korean — Intermediate
Uzbek — Native
Russian — Intermediate

SKILLS

Frontend: React, NextJS, Typescript, JavaScript, TailwindCSS, MaterialUI, Shadcn/UI, Redux, Zustand, Context API, Responsive Design, Figma Implementation, Third-party React Libraries, **React Native,** HTML, CSS,

Backend: Java, Spring, Spring-boot NodeJS, NestJS, ExpressJS, MongoDB, Mongoose, REST API , GraphQL, JWT, Express-sessions, BetterAuth, 파일 업로드 (Multer, Cloudinary), Socket.io

DevOps & Cloud: Docker, Docker Compose , **CI/CD** (GitHub Actions), Linux Server Management, Nginx, PM2, Firewall Configuration, **AWS (EC2,S3)**, Vercel, Render, VPS/VPC

Tools: Git, GitHub, VSCode, Postman, NPM, NVM, Yarn, Figma, File Zilla, Z Shell, **ER** Modaler Tools

AI and **Automation:** Claude Code(skills) **Gemini API** Integration, AI-assisted Development Workflows, **n8n** Automation, MCP servers, Claude Agents configuration, Telegram Bots

WORK EXPREICENCE

Full Stack Developer (remote) — 2024 Jan - 2025 Dec

Silk Road Professionals - Fergana, Uzbekistan

- Developed production-ready web applications using **React, Next.js**, and **TypeScript**, delivering responsive and user-friendly interfaces.
- Implemented UI components using **TailwindCSS, Material UI**, and **shadcn/ui**, ensuring consistent and modern design.
- Built reusable components based on Figma designs and **responsive layout** principles.
- Managed application state using **Redux, Zustand**, and **Context API**.
- Integrated frontend with backend services using **REST APIs** and **GraphQL**.
- Implemented secure authentication using **BetterAuth, JWT,** and **Express Sessions**.
- Built real-time features using **Socket.io**.
- Deployed applications using **Docker, Nginx**, and **PM2**.
- Implemented automated deployment pipelines using **GitHub Actions CI/CD**.
- Managed cloud deployments using **AWS EC2, AWS S3**, **Vercel**, and **Render**.
- Built **automation workflows** using **n8n** to integrate external services.

Backend Developer (remote) — 2022 May - 2023 Nov

ISHONCH Electronics Retails - KoKand, Uzbekistan

- Developed backend services using **Node.js**, **NestJS**, and **MongoDB**.
- Designed and implemented REST and GraphQL APIs supporting web and mobile applications.
- Designed **database schemas** and optimized **MongoDB** queries for performance.
- Implemented authentication and authorization using JWT and session-based authentication.
- Developed backend services supporting **React Native** mobile applications.
- Implemented media upload functionality using Multer and Cloudinary.
- Configured application servers using **Nginx** and PM2.
- Managed deployment environments using Docker and Linux servers.
- Participated in **CI/CD deployment** workflows using GitHub Actions.
- Supported cloud deployment on **AWS EC2** and **Render**.
- Tested APIs using **Postman** and maintained API documentation.
